

## A Good Team Management System Can Set Up Your Entire Season For Success...

In sport management, information and communications to your stakeholders are key, and no one is more important than the coaches, players and parents you serve. As such, effective team management and coordination is essential as all of these key stakeholders reside on teams.

### Create Teams Quickly and Easily

SportzSoft team management allows for the formation and management of teams. Once teams have been made up, mini websites are created for each team. These websites can be either public or secure and contain information related to other team contacts, schedules and statistics.

It's one thing to collect your registrations, but quite another to use this information to make up teams. New registrations come in, players quit, others want to be on teams with their friends – and you haven't even evaluated them yet!

**SportzSoft Team** allows you to manage all these issues - everyone uses the same data.

If new registrants sign up, you can add them to a team; if players quit, then they are removed from the team list; if players have special requests, then assign them to their friend's team, or move them if you have already put them on a team...it's that simple!

No more lists, multiple 'update' email messages and hand written

notes...all your information is stored and updated in one convenient location.

### Team Communications and Management

Once you have created your team lists, all information is automatically published to a team website.

Public information includes team name, coach's names, team announcements, and team schedule. Protected information (that must be accessed through a secure login) includes contact information, player profiles and statistics.

There is also another secure area for coaches and managers where they can update the team website, change the schedule, access secure information, send team emails, and view player profiles.

### Player Profiles

**SportzSoft Team** maintains up-to-date player profiles. This includes basic player information such as age, height, weight, shot, position, and number, as well as detailed information like team history, and player stats.

### Team Schedules

If used in conjunction with **SportzSoft Scheduler**, **SportzSoft Team** allows coaches and managers to add team practices, games and events to their schedule. If the league schedule has been created by a centralized league, then those games cannot be changed by team contacts.

### Centralized Database

As team coaches and managers update player and parent contact information, everyone benefits as it is the same information used throughout the system. In fact, centralized contact management is one of the key features of SportzSoft Software products.

### Link to Statistics

If you are running a public league or tournament, SportzSoft Team works seamlessly with SportzSoft Statistics to present league or tournament standings and player statistics.

## Key Features:

### Data Management:

- Use the same data; don't recreate it! All online registrations collected with SportzSoft Admin's online registration system can be moved over to SportzSoft Team. Use the powerful 'TeamBuilder', to quickly assign registrants to teams
- Data Maintenance: all updates made in SportzSoft Team (contact information) is automatically updated in all other SportzSoft modules – no effort required!

### Team Assignment:

- Registrants are quickly and easily assigned to teams
- Players are sorted by last name, first name, age and other fields for easy assigning
- If you make a mistake, you can move players at any time, easily.

PeeWee 1 Edit

Team	Coach	Players	Manager	Add
Sonics	Kevin Sieban	0	Bob Test	Edit
Knicks	Mike Smith	0	John Smith	Edit
Totals		0		

### Program Administration:

- Create seasons, division groups (i.e.: Bantam, PeeWee, U18, U16, etc.), divisions (i.e.: AAA, AA, B, C, competitive, house league, etc...) and teams.
- Assign coordinators to division groups, and coaches and managers to teams
- Automatically roll up stats for number of players and teams by division

### Team Communications:

- Automatically creates team websites. You can link or embed these websites into your existing site
- All updated information is published to the team website immediately
- Limited team information appears on the public website. More detailed and sensitive information can only be accessed by a secure login.
- Mass emails can be sent out by team officials or team coordinators

### Player Profiles:

- Player profile information can be viewed and updated by coaches and managers.

## Service:

### We help you every step of the way

Our expertise is second to none. We have helped many organizations determine the best way to set-up and administer programs using our software.

### Complete training and support

We will provide complete training and support so you are up and running right away. Extensive online help files are also available 24/7.

### Full Maintenance

You'll never have to worry about server upgrades, backups or maintenance. We will ensure you are up and running all the time.

## SportzSoft - Accelerating Sport Team Management!

- Get control, increase revenue and improve service.
- Optimum management in minimal time. An investment you can't afford to ignore.
